Blouse by Roberta di Camerino; pants by Alice of California; earrings by Monies; belt by Anne Klein; sunglasses, bag and boots all vintage

Shoes by Blumarine; dress, earrings and clutch, vintage

## What's New at Acqualina Spa by ESPA

Part of the amenity-rich allure for guests and residents at Acqualina—beyond its world-class dining (Il Mulino New York) and three oceanfront swimming pools—involves the five-star offerings at the first ESPA-branded spa in the United States. As always, Acqualina Spa by ESPA, remains on the cutting edge of luxury pampering with three new treatments that employ Cryo T-Shock, a state-of-the-art cryotherapy device.

• **CRYO T-SHOCK ARCTIC BLAST:**

This face treatment (60 minutes; \$375) starts with a facial cleanse followed by the alternating warm and cold temperatures that distinguish Cryo T-Shock's antiaging technology. The session increases collagen production, and deals with fine lines and puffiness. The facial concludes with an application of the new ESPA Tri Active Advanced ProBiome serum, moisturizer and eye cream.

• **CRYO T-SHOCK ANTI-AGING:**

This more involved face treatment (75 minutes; \$395) also includes a facial cleanse and Cryo T-Shock session, as well as the application of the serum, moisturizer and eye cream. The added bonus is a relaxing scalp massage while enjoying the benefits of a lift and smoothing mask with seaweed and Argan extracts.

• **CRYO T-SHOCK BODY**

**TREATMENT:** There are separate sessions for arms, glutes and abdomen (60 minutes; \$375) and front or back of the thighs (75 minutes; \$395). Cryo T-Shock's pre-programmed protocols target the areas of choice—it's a noninvasive approach to body contouring.

Visit [acqualinaresort.com](http://acqualinaresort.com) for details about the resort and residences—and the property's countless offerings.
