Expert Advice

Dr. Oz regular and New York Times best-selling author

Dr. Kellyann Petrucci is something of a deity in health circles ever since she shared her discovery of the guthealing and anti-aging effects of bone broth. Her practice in Michigan is dedicated to reversing inflammation and dangerous belly fat. On May 5, the good doctor brings all that expertise to a workshop at Acqualina Spa by ESPA that will include practical advice from Petrucci, food tastings, gifts for attendees and a spa treatment. Think of it as health class-with fivestar extras. \$360 per person, 17875 Callins Ave., Sunny Isles Beach, 844.707.5702. acqualina.com -LRR
